INSTALLATION & SAFETY

This symbol indicates important operating and servicing instructions.

Choosing the best location for your DS845

When choosing a location for your phone there are a number of appliances the phone should not be near, and areas you should avoid.

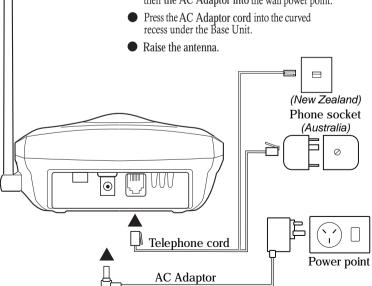

This page is a very condensed version of the Owners Manual. It is designed to allow you to get your phone installed and operating as quickly as possible - however it does not attempt to explain any of the advanced features of the DS845

Installing the Base Unit

- Plug the telephone cord into the Base Unit, then into the telephone socket on the wall.
- Plug the AC Adaptor cord into the Base Unit, then the AC Adaptor into the wall power point.

Make sure the AC Adaptor remains switched ON at all times.

Use only the Uniden AC Adaptor supplied with this unit.

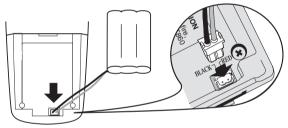

Quick Start Guide

• Connect the battery plug to the socket at the rear of the battery compartment.

Make sure the plug is the right way round.

The **RED** and **BLACK** battery wires must match the **RED** and **BLACK** printed on the phone case for the plug to fit properly. Press firmly until it clicks into place.

Position the battery in the compartment and slide the cover into place.

Place the handset on the base Unit and charge it uninterrupted for 14 hours.

Quick Start Guide

Making a Call

- Pick up the handset and press talk
 Dial the phone number
 OR
 Dial the phone number then press talk
- To hang up press talk
 OR
 Place the handset on the base Unit.

Answering a Call

- Handset on Base Unit: Remove the handset from the base and speak (Auto Talk).
- Handset off the Base Unit:
 Pick up the handset, press talk and speak.
- To hang up press talk again OR place the handset on the base unit.

Setting Up the Answering System

To Turn the Answering System On

 Press ans on - the pre-recorded greeting will play and your system is ready to accept calls.

To Record Your Outgoing Message.

- Press and hold greeting.
 After you hear a short tone, release the key.
- Record your greeting while speaking within 15cm of the base.
- When finished, press greeting again.

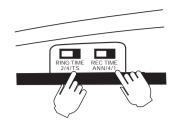

Quick Start Guide

Initial Settings

- Ring Time the number of rings before the Answering System answers the call
 Set Ring Time to T/S (= 9 rings)
- Record Time the length of time a caller may record a message

Set Record Time to 1 minute

Using the Answering System

To Play Your Message

Press - new messages play first

To Repeat a Message

Press during playback of messages

To Skip a Message

 Press anytime during playback to skip to the next message
 The system beeps and begins to play the next message.

To Delete Messages

● Delete all messages:

After reviewing all messages - press and hold

more than 4 seconds. A tone sounds indicating messages have been deleted.

WELCOME

Congratulations on your purchase of the Uniden DS845 digital cordless telephone. This phone is designed for reliability, long life and outstanding performance utilising the latest in 900 MHz Digital Spread Spectrum Technology.

FEATURES

- 900MHz Digital Spread Spectrum Technology
- Secure Digital Transmission
- Multi-Handset operation
- Base Speakerphone operation with keypad
- Caller ID Function
- 60 Number Caller ID Memories
- Backlit Keypad
- 3-Line, 16 Character Backlit Handset Display
- 39 Memory Dial Location (29 on Handset, 10 on Base).
- 32 Digit Redial
- 3 Redial Memories
- 1 Flash
- 1 Pause
- 10 Days Standby Battery Life
- 4.5 Hours Talk Time
- Handset Earpiece and Ringer Volume Control
- Hearing Aid Compatible
- Name Tagging
- Integrated Answering System

Digital Spread Spectrum Technology utilises a digital transmission and a "wider frequency band" compared to a "single narrow band" 30/39 Standard Analogue transmission. The result is a more secure conversation with the clarity of digital sound, extended range and minimal interference from other cordless phones.

Random Code TM digital security automatically selects one of over 16 million codes for the handset and base. This feature prevents unauthorised calls as a result of your phone being activated by other equipment.

ACCESSORIES INCLUDED IN YOUR PACKAGE

To get the most from your phone, please read this Owner's Manual thoroughly. Be sure to complete and mail the product consumer support card.

If any of these items are missing or damaged, contact your place of purchase.

Rechargeable Battery

AC Adaptor

Telephone Cord Adaptor (Australia Only)

Telephone Cord

Plus - This Owner's Manual Consumer Support Card and other printed materials

INSTALLING THE BELT CLIP

To attach the belt clip

Press the beltclip against the rear of the handset until it clicks into place.

To remove the belt clip

¹ Gently pull one side of the beltclip to release.

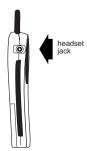

If you are using an optional headset, you must still use the handset keypad for phone operations.

HEADSET INSTALLATION

Your phone may be used with an optional headset.

To use this feature, simply plug the headset into the headset jack.

BATTERY MAINTENANCE

Use only the genuine Uniden Battery supplied with your phone. Replacement batteries are also available through the

Uniden Parts Department.

The built-in memory backup can hold numbers and names stored in the memory even if the battery pack is completely discharged.

Battery use time (per charge)

From fully charged

- Four and half hours continuous use.
- Ten days when the handset is in the

 A full charge will take at least 12 hours if Low Battery is displayed - however the phone will be ready for a short call after one hour.

When the battery charge becomes low

If the phone is not in use, **Low Battery** flashes and none of the keys will operate. If the phone is in use, **Low Battery** flashes and the handset beeps. Complete your conversation as quickly as possible and return the handset to the base unit for charging.

Low Battery

- You cannot over charge the battery.
- You may return the handset to the charger after each call or when the battery is low.

Genuine handset batteries

The high quality rechargeable batteries supplied with your phone perform for up to two years or more. In order to enjoy the best performance from your phone, we recommend you replace your batteries every two years with a genuine Uniden Battery. Simply order a replacement battery from:

Uniden Australia PTY Limited Uniden New Zealand Limited

Service Division Service Division

Toll Free: 1300 366 895 Toll Free: 0800 4 UNIDEN (0800 4 864 336)

Cleaning the battery contacts

To maintain a good charge, clean the battery contacts on the handset and base unit monthly with a dry cloth or pencil eraser. **Do not use any liquids or solvents.**

ADJUSTING THE RINGER AND EARPIECE VOLUME

Ringer tone and volume

The phone has four ringer tone and volume combinations

In the standby mode, press or on the handset repeatedly. The display shows the setting.

Earpiece volume

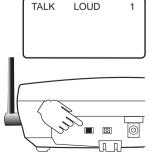

Pressing or during a call will change the earpiece volume of the handset. The telephone will keep this setting for all calls and display the setting for each call.

Base Ringer Switch

You can turn the base ringer on or off with the base ringer switch.

Base Speaker Volume

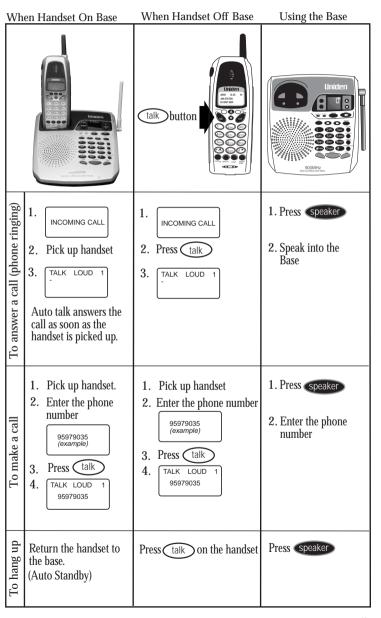

To control the speaker volume of the base, press or as desired.

KEY LOCK / UNLOCK

When the handset is in the ST/BY mode, press and hold (flash/reg), a beep confirms and the screen displays KEY LOCKED

During the 'Key Locked' condition, the buttons will only operate on an incoming call. To unlock the keys, press and hold (flash/reg) again.

KEY LOCKED

KEY UNLOCKED

CALL WAITING/FLASH

If the Call Waiting tone sounds during a call -

Australia: Press flash/reg, then (2) to switch between callers. New Zealand: Press (flash/reg) to switch between callers.

STORING PHONE NUMBERS AND NAMES

With the Handset

Memory Dialing allows you to dial a number using just a few key strokes. You can store up to 29 phone numbers in the memory.

Since each step must be completed within 10 seconds, it may be advisable to review these instructions before starting.

- 1. Press and hold memory until MEMORY STORE is displayed.
- 2. Press or to select the memory location where you would like to store the number.
- 3. Press Select STORE NAME is displayed. If this screen appears, the selected memory location has a number already stored.
- 4. Use alpha numeric keys to enter the name. The name cannot exceed 12 characters.

 Use

 → and
 → to move the cursor to the next letter or to create a space.

 Use Gelete/page to delete characters as needed.
- 5. Press Select STORE NUMBER is displayed.
- 6. Use the number keypad to enter the phone number. It cannot exceed 24 digits.

 Use redial/p to enter a pause. The screen displays P.

Each pause counts as one digit and represents one and half second delay in time between digits.

Use delete/page to delete digits as needed.

- 7. Press select the handset beeps and displays the confirmation screen.
- 8. Press memory to return to standby mode or select another location to programme.

NOTE

(refer page 16)

NOTE

When storing a number,

always include your area

code (eg: 02), so name

tagging will operate.

The pause feature is useful for long distance calling, credit card dialing, or sequences that require a pause between digits.

Only numbers stored in the Base Unit may be dialled from the Base Unit.

With the Base Unit

- 1. Press memory. The status LED blinks.
- 2. Dial the number you wish to store (not to exceed 24 digits).
- 3. Press memory. Enter the one digit memory location number (0 9) to store the number.

PAGING/INTERCOM

When an incoming call is received during paging, paging is cancelled and the telephone is switched to the incoming call.

If additional handsets have been registered to the base, all handsets will beep when paged.

Pressing the **page** button will help to locate a handset's whereabouts.

Paging from base unit to the handset

- 1. Press page/int' on the base.
- 2. The handset beeps for 60 seconds.
- 3. Press the delete/page button on the handset to end the page.

From handset to Base Unit

- 1. Press <u>delete/page</u> **(1)** on the handset (If there is no answer, press <u>delete/page</u>) again to disconnect).
- 2. At the Base Unit, press page/int to answer. Speak into the Base Unit microphone.
- 3. To turn off the intercom, press page/int on the Base Unit or delete/page on the handset.

From handset to an optional handset

- 1. Press delete/page [handset No.(1)-7)] on the handset.
- 2. The paged handset beeps for 20 seconds.
- 3. Press delete/page key on the paged handset to talk to each other.
- 4. To end the intercom, press delete/page again.
- 5. Both handsets go to standby.

2 way radio feature (using an optional handset)

 $2\ way$ communications between the handsets using the intercom feature, can be achieved $\mbox{\it without}$ the base anywhere, anytime.

PAGING HAND 5

INTERCOM

REGISTRATION

If a handset is registered at any time as handset 1, all other handsets will need to be registered again from Step 1.

If you have additional handsets, repeat the same process, but at Step 2 select a number from 3 - 7 to register the next handset as (fig 3)

The Registration process needs to be completed within 15 seconds, 3 beep tones will indicate that the time has been exceeded. Please start the process again.

After Registration the handset number is shown on the Display screen either during a call or while the handset is charging (Fig 5). The original handset supplied with the Main Base is already registered as handset 1, this leaves handset numbers 2 - 7 available. It is very important to allocate each handset a different number to enable functions such as Call Transfer.

Registration Process

Follow this process for each additional handset (DS805) that needs to be registered to the Main Base or for registering your Main Handset.

- 1. Remove the handset from its charger
- 2. Press flash/reg on the handset (Fig 1).
- 3 Press the number 2 (Fig 2) for handset 2.

REGISTER AS HAND #2

REGISTER AS HAND # (3 - 7)

4. Place the handset in the Main Base Unit (Fig 4).

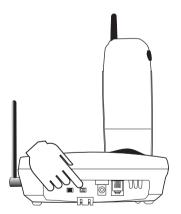

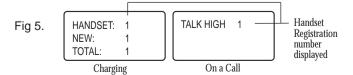

Fig 4.

CALLER ID

Caller ID information may not be displayed immediately. You must subscribe to the Caller ID service from your local telephone company to use these features.

When the telephone rings, the Caller ID feature allows you to view the caller's name and phone number on the display before you answer the phone. The handset displays the phone number of the incoming call, the name, time and the number of calls. Additionally, you can dial the displayed number and store the information for memory dialing.

When the Telephone Rings

When the Caller ID message is received, the display shows the caller's phone number along with the date and time.

The incoming call information is stored in the Caller ID record. If the Caller ID service included the caller's name, the caller's name appears on the display (up to 15 letters).

Some typical Displays:

When the phone number, name and date are received

28/09 12:30 01 FRED 02 9597 9035

When a private number is received

28/09 12:30 01 INCOMING CALL

When a call is coming from overseas (New Zealand only)

28/09 12:30 01 OVERSEAS CALL 0000 When invalid data is received

INCOMPLETE DATA

When an unknown number is received

28/09 12:30 01 UNAVAILABLE

When a call is coming from a payphone (Australia only)

28/09 12:30 01 PAYPHONE UNAVAILABLE

If the displayed Caller ID telephone number is **exactly** the same as a number stored in memory, then the stored name will also be displayed with the incoming Caller ID telephone number. Oversea's calls cannot be Name Tagged.

Private numbers will not be recorded in the Caller ID List.

Viewing the Caller ID Message List

The Caller ID list stores information for up to 60 incoming calls-even unanswered calls.

- Press cid the summary screen is displayed.
 The screen shows the number of new messages and total messages.
- 2. Press to display the latest Caller ID message.
- 3. Press to see the next message, or press to see the previous message.

- 3. Press options again to store your setting.

DIAL PREFIX

ANSWER SYSTEM

You can use your answering system to leave a voice memo message for others who use the phone, or to announce a special message to callers when you're away from your phone.

Features

Digital Tapeless Recording

15 minutes of Recording Time

Selective Greeting (Outgoing Message)

Remote Message Retrieval and Room Monitor

Toll Saver

Digital Tapeless Recording allows you to quickly review, save or delete the messages. You'll never have to worry about a tape wearing out, jamming or resetting improperly. The Integrated answering system is easy and convenient to use, but please read through all of the instructions carefully.

Setting Up Your Answering System

Turning the answering system on/off:

- 1. To turn the answering system on, press ans on The current greeting message will be played.
- 2. To turn the answering system off, press ans off "Answering System Off" is announced.

Setting your greeting:

When you receive a call, the answering system automatically plays either a preset message or your own greeting.

Preset message:

The following message is pre-recorded -

"Hello, no one is available to take your call. Please leave a message after the tone"

Recording a personal outgoing message (Greeting):

- Press and hold greeting until you hear a tone.
 Start recording your message immediately after you hear the tone end.

Choosing between the two outgoing messages:

- 1. Press greeting to play the outgoing message.
- Press greeting again while the message is playing. This switches between the two options.

The answer machine automatically turns itself ON after 10 rings.

Selecting the message record time:

You can set your answering system to record a message up to one or four minutes long.

One minute option: move the REC TIME switch to 1.

Four minutes option : move the REC TIME switch to 4.

Announce only feature:

The announce only feature plays an outgoing message, but it will not allow the caller to leave a message. Move the **REC TIME** switch to the **ANN** position.

The message counter LED displays

when the system is on standby.

Pre-recorded outgoing message for Announce only feature is: "Hello, no one is available to take your call." (twice)

Selecting a PIN code:

To play your messages from a remote location, you will need to enter a two digit Personal Identification Number (PIN) code (00-99). To select a PIN, perform the following steps.

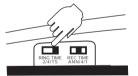

- 1. On the base, press and hold pin until a tone sounds and the LED displays **00**.
- 2. To set the first number, press or repeatedly to scroll from 0 to 9. When the desired number appears in the display, press pin.
- 3. To set the second number, press or to scroll from 0 to 9. When the desired number appears in the display, press oin. Then the entered PIN code is announced.

Selecting Ring Time Switch:

The ring time/toll saver switch allows you to set the number of rings the caller hears before the answering system plays your outgoing message.

You can set the switch to answer after two rings or after four rings. Once the greeting has started, you can stop it when you pick up the call at the handset or base. In the TS (toll saver) position, the answering system picks up after 6 rings if you have new messages, and after 9 rings if there are none.

Using Your Answering System

Playing your messages

The base LED shows the number of total messages on the display. If the display is blinking, then there are new messages waiting for you. After you play your new messages you can then play old messages.

- Press play The system announces the number of new and old messages, then
 the incoming messages are played.
- 2. When all new messages have played, a tone is heard. The message counter LED stops flashing to indicate that all of the new messages have been reviewed.
- 3. After you have reviewed all your messages, you can play your old messages again. Press play and follow the instructions above.

Repeating a message

- 1. Press play to review the message. The number of stored messages is announced.
- 2. After a message has played for a few seconds, press to repeat the message.
- Press play at any time to stop reviewing messages and return to standby. The message counter LED shows the total number of messages still on the system.

Skipping a message:

- 1. Press play to review the message. The number messages is announced.
- 2. Press at anytime to skip to the next message.
- Press play at any time to stop reviewing your messages and return to standby.
 The message counter LED shows the total number of messages on the system.

Deleting Messages

Deleting individual messages:

- 1. Press play to review your message.
- If you decide to delete a message, press delete
 anytime during the message. The system beeps
 and immediately goes to the next
 message.

Deleting all messages:

Press and hold delete while the system is in standby. A tone sounds when all messages are deleted. If there are any messages you have not reviewed, you cannot delete all messages at once. An error tone occurs.

Voice memo:

The voice memo function allows the user to record a message (up to 10 minutes) on the base.

- 1. Press and hold voice memo until you hear a tone, the message counter LED blinks.
- 2. Speak into the microphone.
- 3. When you have finished, press voice memo or play to stop recording. The system returns to standby.
- 4. To play voice memo, press play

Remote access away from home:

You can operate your answering system from a remote location using any touch-tone telephone. Use this function to check for recorded messages, play or delete messages, record a new outgoing message - or - monitor sounds in the room.

- 1. Call your telephone number.
- 2. While the greeting message is played, press # and your PIN code within 2 seconds. If the answering system is off, let it ring 10 times. When the greeting plays, press # and your PIN code within 2 seconds.
- The answering system announces the number of messages stored in memory. Then the message playback automatically begins.
- You may continue to listen to your message, or you may select a command from the following chart.

Command	Function
Press # then 1	Repeat a message
Press # then 2	Play the messages
Press # then 3	Skip a message
Press # then 4	Delete a message
Press # then 5	Stop message playback
Press # then 6	Answering system ON
Press # then 7	Voice memo record / stop (up to 4 minutes recording time)
Press # then 8	Greeting message record / stop
Press # then 9	Answer system OFF
Press # then *	Room monitor

- 5. After all of your messages have played, or the playback time exceeds 4 minutes, you will hear intermittent beeps indicating that the system is in the command waiting mode. You may enter another command at this time from the chart above.
- When you finish, hang up to exit the system. The answering system automatically returns to standby.

Remote room monitor:

You can call your answering system from any touch-tone phone and monitor sound in the room where your base is installed.

- 1. Call your telephone number.
- 2. While the greeting message is played, press # and your PIN code. If the Answering System is off, let it ring 10 times. The tone sounds. Press # and your PIN code.
- The answering system announces the number of messages stored in memory. Then the message playback automatically begins.
- 4. Press # then **5** to stop the messages.
- 5. Press then *. You hear sounds in the room where your phone is installed. After 15 seconds, the answering system returns to the Command Waiting mode.
- 6. Press # then * to monitor the room for another 15 seconds. Or select another remote function. Or hang up to exit the system. The answering system automatically returns to standby.

TROUBLE SHOOTING

PROBLEM	SUGGESTION
No dial tone	Check that the phone line cord connectors at both ends are pushed in until they click.
Talk flashes No dial tone	Re-register the handset - see page 17
Cannot dial out	Dial Prefix may be incorrectly set - see page 20 to delete Dial Prefix.
Does not ring	You may have exceeded the limit of the number of phones that can be connected to the same line, at the one time. Disconnect some telephones
No power on the handset	Check the battery pack plug, inside the battery compartment of the handset, is fully pushed in. The handset rechargable Ni-Cad battery pack may need to be charged. Check the AC Adaptor is plugged in at both ends and switched On.
Does not charge	Make sure the charging contacts on both the handset and the base unit are in contact during charging. The charging contacts may need to be cleaned with a dry cloth or pencil eraser. Check the AC Adaptor is plugged in at both ends and switched On.
Range is limited	Make sure the base antenna is vertical. Move the base unit so that it is centrally located in your residence or office and make sure that the base unit is not located near electrical appliances.
Calls received, flutter or fade	The handset rechargable battery pack may need charging. You may be out of normal operating range. Move closer to the base unit.

One Year Limited Warranty

Important: Evidence of original purchase is required for warranty service.

Warrantor: Uniden Australia Pty Limited A.B.N. 58 001 865 498

Uniden New Zealand Limited

ELEMENT OF WARRANTY: Uniden warrants to the original retail owner for the duration of this warranty, its DS845 (herein after referred to as the Product), to be free from defects in materials and craftsmanship with only the limitations or exclusions set out below.

WARRANTY DURATION: This warranty to the original retail owner only, shall terminate and be of no further effect 12 months after the date of original retail sale. This warranty will be deemed invalid if the product is; (A) Damaged or not maintained as reasonable and necessary, (B) Modified, altered or used as part of any conversion kits, subassemblies or any configurations not sold by Uniden, (C) Improperly installed, (D) Repaired by someone other than an authorised Uniden Repair Agent for a defect or malfunction covered by this warranty, (E) Used in conjunction with any equipment or parts or as part of a system not manufactured by Uniden. (F) Only available in the original country of sale.

PARTS COVERED: This warranty covers for one (1) year, the Base/Charging Unit and Handset only. All accessories (AC Adaptor, battery etc.) are covered for 90 days only.

STATEMENT OF REMEDY: In the event that the product does not conform to this warranty at any time while this warranty is in effect, the warrantor at its discretion, will repair the defect or replace the product and return it to you without charge for parts or service. THIS WARRANTY DOES NOT COVER OR PROVIDE FOR THE REIMBURSEMENT OR PAYMENT OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. THIS GUARANTEE IS IN ADDITION TO AND DOES NOT IN ANY WAY AFFECT YOUR RIGHTS UNDER THE CONSUMER GUARANTEE ACT.

PROCEDURE FOR OBTAINING PERFORMANCE OR

WARRANTY: In the event that the product does not conform to this warranty, the Product should be shipped or delivered, freight pre-paid, with evidence of original purchase (eg. a copy of the sales docket), to the warrantor at:
